THE UNIVERSITY

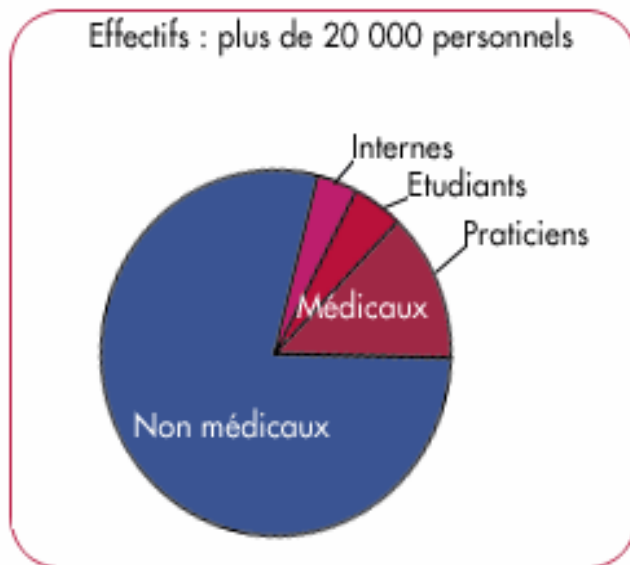

- The **University of Lyon** (*Université de Lyon*), located in Lyon comprises 16 institutions of higher education and is regarded as the fifth largest university in France. The three main "sub-universities" are called faculties (*facultés*) and *the Université Claude Bernard*, founded in 1971, focuses on health and science studies.
- This faculty has over 28,000 and more than 60 % are registered in the one of the following professional fields: Health, I.U.T., DEUST, Bachelor of Arts degrees and Masters Programmes.
- All of the major science disciplines are taught in Lyon: actuaries, biochemistry, biology, chemistry, electrical engineering, computer sciences, management, mathematics, mechanics, physics, etc,... We also offer professional courses in medicine, pharmaceuticals, odontology, midwifery as well as six paramedic courses: physical therapy, occupational therapy, hearing aide specialist, speech therapy, orthoptist and psychomotrician studies .

THE UNIVERSITY

- The University is internationally renowned for its research department. It has 102 research units, 41 of which are in association with the C.N.R.S. (National Centre for Scientific Research), 22 with I.N.S.E.R.M. (French National Institute for Health and Medical Research), 4 with other research bodies, 24 'welcome' teams and one 'young' team.
- More than half of the research activities are carried out in the Sciences and Health Campus, the other half is Technology
- The University Claude Bernard Lyon 1 actively abides by a unique policy of transparent politics in the realm of Lyonnaise research, on the one part supported by the University of Lyon and on the other by the business world.

THE UNIVERSITY HOSPITAL: Claude Bernard Lyon 1

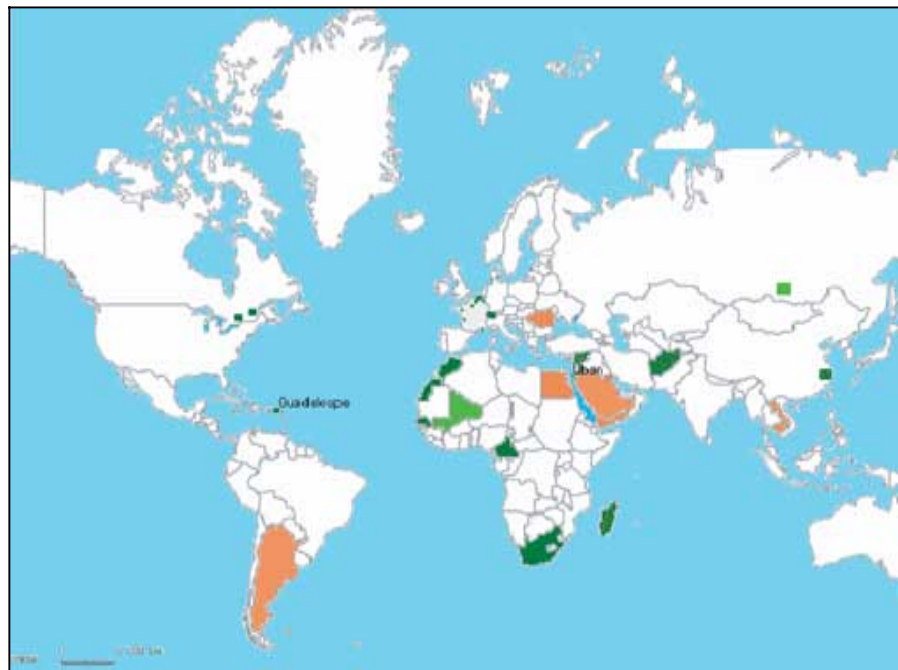

- In order to respond efficiently to the growing sanitary requirements, the University hospital constitutes 17 separate specialist clinics.
- It has 328,255 out-patients and 864,145 consultants
- It has 194,660 emergency cases
- It has 5,335 Beds
- In 2006, the hospital received a budget of €1.352m.

➤ Part of the Hospital's international programme is that it places experts and student teachers at the disposal of overseas partners that require first-class sanitary assistance. For example, six major partnerships have already been established with Libya, Afghanistan, China, Morocco, Senegal and South Africa. The hospital is also actively involved in fighting AIDS in those regions.

THE UNIVERSITY HOSPITAL: Claude Bernard Lyon 1

➤ The hospital has 321 foreign training doctors, mostly from Africa (37,8%) and Europe (25,8%).

- Afghanistan, South Africa, China, Libya and multilateral partnership in Morocco & Senegal.
- HCL - UCBL1 - Foreign Universities
- HCL - Villefranche - Mali and HCL - Grenoble - Irkoutsk
